

The Melgarve Cluster Public Consultation Events

SSEN Transmission invites you to share your views with us.

What is happening?

In December 2021 and January 2022, SSEN Transmission held virtual online consultation exhibitions on our preferred route proposals to connect 3 proposed wind farms into the existing Melgarve 400/132kV substation to enable export of the electricity from these wind farms into the SSEN Transmission system.

Following these events and the termination of Glenshero wind farm connection, we are now pleased to be hosting further public consultations to present our alignment for connecting the proposed Cloich and Dell wind farms.

We would encourage members of the local community and all interested parties to attend the events.

The face-to-face consultations will be held at the following locations:

**Wednesday 8th February,
2-7pm, Laggan
Community Hall, Laggan**

**Thursday 9th February,
2-7pm, Fort Augustus
Village Hall, Fort Augustus**

These are open door drop in sessions, open to all members of the public and interested parties.

If you have any questions, please do not hesitate to contact the Community Liaison Manager:
