

Beauly – Denny 400kV Upgrade Project New Braco West 400kV Substation

SSEN Transmission invites you to share your views with us.

What is happening?

SSEN Transmission is holding a public consultation event to gain views and feedback for part of our Beauly – Denny 400kV upgrade project. For this consultation we will be consulting with the local community and all interested parties and encouraging feedback on our proposals relating to the proposed new Braco West substation which will operate at 400kV.

Our face to face consultation event will give members of the public an opportunity to view our proposals and speak with members of the project team.

This event will be followed by a six week feedback period, during which all stakeholders are invited to provide feedback specific to the proposals at this stage. We would encourage all members of the local community, and all interested parties to attend the event and meet with our project team who will be there to talk through the details of the project and answer any of your questions. **Our consultation period for this project opens on 22 August and will close on 3 October.**

The consultation will be held on:

Date: 22 August 2023

Time: 3:30pm - 7:30pm

The consultation will be held at the following location:

Braco Hall,
Feddal Rd, Braco,
Dunblane, FK15 9QD

If you have any questions, please do not hesitate to contact the Community Liaison Manager:
