

# Fort Augustus substation 400kV upgrade

## Feedback event

We are pleased to be hosting a public event on our proposed upgrade to the existing Fort Augustus substation, following the initial consultation event in November 2023 and feedback period which closed on 11 January 2024.

We are holding this event to present our final proposed substation extension design, which has been informed by stakeholder feedback. We will also present our responses to feedback received as part of the statutory Pre-Application Consultation (PAC) which is required for major planning applications.

During our face to face drop-in event you will be able to view our proposals and submit questions and comments to the project team. Further details will be available on the project website.

**The event will be held on:**

**Thursday 22 February, 3.30–7pm**  
**Fort Augustus Village Hall, Church Road, Fort Augustus, PH32 4DG**

We encourage all members of the local community and all interested parties to attend the event.

Find out more and register for project updates, visit the project website by scanning the QR code, or use the following URL:
