

Cambushinnie Haul Road

Beauly-Denny 400kV Upgrade Project

Feedback Event

We are pleased to be holding a second public event on our proposals for the access road to the new Cambushinnie 400kV substation, following our pre-application consultation in November 2024 and feedback period which closed on 8 January 2025.

We are holding this event to present updates to our proposals, following feedback received from the last event and ongoing design developments.

During our face-to-face drop-in event you will be able to view our project proposals, ask questions to the project team and share further comments. Further details will be made available on the project website.

More information overleaf.

The event will be held on:

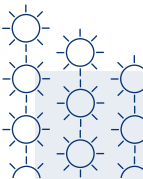

Monday 17 March, 3–7.30pm
Braco Village Hall, Feddal Road,
Braco, FK15 9QD

We encourage all members of the local community and all interested parties to attend the event.

Find out more and register for project updates, visit the project website by scanning the QR code, or use the following URL:

www.ssen-transmission.co.uk/cambushinnie

This map shows the Beaulieu–Denny overhead line with the required upgrades along the line, including new 400kV substations at Cambushinnie, Bingally and an upgrade to the existing substation at Fort Augustus.
