

### **Contaminated Land – PKCIR 1864**

**A site proposed for development for land to the west of Braco near to the existing Braco West substation. The Grid Reference for the centre of the site is NN 79176 09097 and the nearest postcode is FK15 9LP.**

- 1. Any recorded, current or historical environmental problems at the site and adjacent areas with regards to ground contamination or solid waste arisings.**

There are no records of any current or historical environmental problems at this site or the surrounding area.

- 2. Any private or public groundwater abstractions on or within 500m of the site boundary.**

There are no known private water supplies within 500m of the site boundary indicated on the map. It is known that PKC's records are incomplete so there may be supplies that we are unaware of.

- 3. The presence and location of any historical landfills within 500m of the site boundary.**

There are no known historical landfills within 500m of the site boundary.

- 4. Any particular areas of sensitivity in the vicinity of the site or nearby areas for which the council may have particular concern.**

There are no known areas of sensitivity in the vicinity of the site.

- 5. Any other relevant environmental information you may hold about the site.**

We are not aware of any further environmental information on this site.

For questions 1 to 5 In terms of regulation 10(4)(a) of the EIRs, this is formal notice that this information is not held.

Under the terms of the EIRs we have to consider the public interest even when we don't hold the information you have requested. Because of this requirement, I have to formally advise you that the public interest in

maintaining the exception outweighs the public interest in making the information available. This is a legal exercise required by the Scottish Information Commissioner and I apologise that this is counter intuitive.
