

Coire Glas Connection Project

Proposed Loch Lundie substation, Coire Glas switching station and 400kV overhead line connection

TRANSMISSION

Public feedback event

SSEN Transmission invite you to come along to these public feedback events for the Coire Glas Connection project.

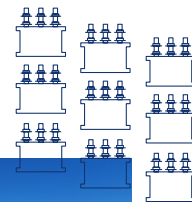

This Connection project is required to connect the Coire Glas Pumped Hydro Scheme and comprises a new 400kV Loch Lundie substation, a new 400kV Coire Glas switching station and a 400kV double circuit overhead line element. This is the final drop-in event, where we will be sharing feedback received from our previous events alongside the latest project information. The project team will be available to discuss our proposals, answer your questions and listen to any further feedback.

Planning applications for these project elements will be submitted towards the end of this year.

These feedback events are being held on:

Wednesday 29 October 2025, 3–7pm
Glengarry Community Hall,
Invergarry PH35 4HG

Thursday 30 October 2025, 3–7pm
Fort Augustus Village Hall,
Church Road, PH32 4DG

If you have any questions, please do not hesitate to contact our Community Liaison Manager:

Sally Cooper

10 Henderson Road,
Inverness, IV1 1SN
