Electricity Networks

# East Coast Overhead Line Upgrades Virtual Consultation

## SSEN Transmission invites you to come and share your views with us

Scottish and Southern Electricity Networks (SSEN) are taking forward plans to reinforce the existing 275kV overhead line to enable operation at an increased voltage of 400kV. As such in lieu of being able to hold face to face public consultations in the local area, we are hosting a number of virtual consultation exhibitions to provide greater detail about this project.

The virtual consultation events have been designed to be as interactive as face to face events, allowing for presentation of key project information and plans, as well as providing an opportunity to ask questions about the project. Visitors will be able to engage directly with the project team, via a live chat function, where they can ask any questions they might have about the project and share their feedback on the current proposals:

**1 September 2020**  
2pm - 4pm

**2 September 2020**  
4pm - 6pm

**3 September 2020**  
5pm - 7pm

If you have any questions, please do not hesitate to contact  
Community Liaison Manager:

**Louise Anderson**  
Tel: 07384 454233  
Email: [louise.anderson@sse.com](mailto:louise.anderson@sse.com)

To find out how you can join the interactive virtual consultation visit the project website:
