

# Errochty GSP Newsletter

December 2025

## Construction works continue at SSEN Transmission's Errochty substation in Tummel Bridge.

The works will see the existing site be extended to facilitate the installation of two new 90MVA 33/132kV transformers along with appropriate 132kV and 33kV switchgear to create a new Grid Supply Point (GSP).

This new Errochty GSP will provide a 33kV connection point, to accommodate all generation and demand currently served by Tummel Bridge GSP, including the requested capacity increase for Tummel Bridge Hydro Power station.

## Works carried out in the last quarter

- Ongoing installation of cable troughs.
- Site drainage and ducting installation.
- Erecting of structures and associated equipment.
- Continuation of bringing substation extension platform up to its final levels.
- Continuation of ducting for cross site services.

The project has a dedicated website, please scan the QR code to be taken to the project website or use the following URL:  
[ssen-transmission.co.uk/errochty](https://ssen-transmission.co.uk/errochty)

## Planned works: Quarter 1 of 2026

- Ongoing erection of structures and associated equipment.
- Commencement of access road civil works and 33kV control building power and lighting.
- Roadside filter drain to be installed.
- Modifications with existing control building.

## Festive Period

Site closure dates for the festive period will be:

**19 December 2025 - 5 January 2026**

Although the site will be closed for all construction workers during this period, security will remain in place 7 days a week and 24 hours per day.
