TRANSMISSION

Construction works continue at SSEN Transmission's Errochty substation in Tummel Bridge.

The works will see the existing site be extended to facilitate the installation of two new 90MVA 33/132kV transformers along with appropriate 132kV and 33kV switchgear to create a new Grid Supply Point (GSP).

This new Errochty GSP will provide a 33kV connection point, to accommodate all generation and demand currently served by Tummel Bridge GSP, including the requested capacity increase for Tummel Bridge Hydro Power station.

Works carried out in last quarter

- Installation of security fence commenced.
- Ducting to structure bases.
- Installation of ancillaries for GTs and cooler banks completed.
- Cladding of control building completed.

The project has a dedicated website, please scan the QR code to be taken to the project website or use the following URL:
ssen-transmission.co.uk/errochty

Planned works: Quarter 2 of 2025.

Cable ducting, troughing and laying.

- Security fence installation continuing.
- Concreting structure bases continuing.
- Continuation of site wide drainage system installation.
