Public Consultation Feedback Event

SSEN Transmission invites you to share your views with us

What is happening?

In recognition of feedback received from our previous consultations held in April this year plans have been developed for the reinforcement works required at Errochty substation and SSEN Transmission are pleased to be hosting a face to face public consultation feedback event to present the updated design and gain views and feedback on our updated proposals to facilitate the installation of two new 90MVA 132/33kV transformers, along with appropriate 132kV and 33kV switchgear to create a new Grid Supply Point (GSP) adjacent to the existing Errochty 132kV substation in Tummel Bridge.

We would encourage members of the local community and all interested parties to attend the event.

These are open door drop in sessions, open to all members of the public and interested parties.

If you have any questions, please do not hesitate to contact the project's Community Liaison Manager:

Louise Anderson
SSEN Transmission,
Inveralmond House,
200 Dunkeld Road, Perth,
PH1 3AQ

Email: louise.anderson@sse.com
Phone: 01738 341 975

The face to face consultation will be held at the following location:

**Kynachan Hall,
Tummel Bridge**
Wednesday 6th July
2-7pm

These are open door drop in sessions, open to all members of the public and interested parties.
