Inveraray – Crossaig Overhead Line Replacement

Pre-consent application consultation events

We would like to welcome members of the public to attend our drop-in events where we will present our preferred route for a replacement overhead line between Inveraray and Crossaig.

The steel towers that have delivered electricity to the Kintyre Peninsula for 60 years are now coming to the end of their operational life. We are proposing to replace the existing line to provide a more secure supply whilst enabling the connection of renewable energy.

Prior to preparing a consent application to the Scottish Government in early 2018, we are hosting open-door consultation events where members of the public will be able to view and comment on the preferred route alignment.

For more information on the project, either come along to the events or contact our Community Liaison Manager:
