

Volume 5: Appendix 15.1 – Noise Sensitive Receptors (NSRs)

CONTENTS

1.	NOISE SENSITIVE RECEPTORS	3
1.1	Introduction	3

1. NOISE SENSITIVE RECEPTORS

1.1 Introduction

- 1.1.1 This appendix details the noise sensitive receptors (NSRs) that fall within 500 m of the Proposed Development, including the permanent realignments, overhead line (OHL) crossings and temporary diversions. It should be read in conjunction with **Volume 2, Chapter 15: Noise and Vibration** and **Volume 1, Chapter 3: Project Description** of the EIAR for full details of the Proposed Development. The proposed towers are subject to a maximum limit of deviation (LOD) of 55 m from the current position if a suspension tower and 100 m if a tension tower, as per **Volume 1, Chapter 3: Project Description**. This has been considered and therefore the distances presented in the last column below are worst-case if the towers move closer to any NSR. NSR names are provided in **Table 15.1.1: Noise Sensitive Receptors** where available, alongside EPSG:27700 / British National Grid coordinates.

Table 15.1.1: Noise Sensitive Receptors

NSR	Name (If Specified)	Coordinate (X)	Coordinate (Y)	Distance From Centreline of Proposed Development (m)	Distance from Centreline if Towers Move Maximum (m)
1	BALKEMBACK FARMHOUSE	339175	738095	355	261
