

Legend

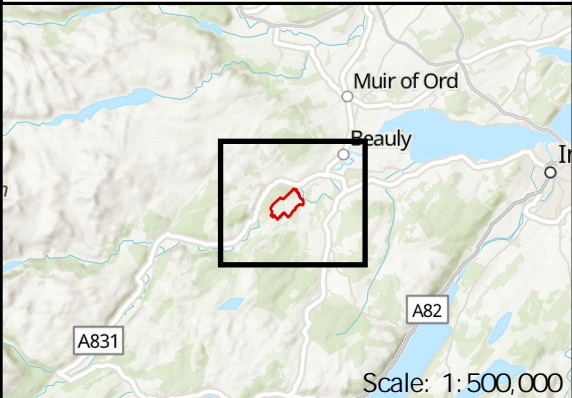

- Site Boundary
- 1 km Buffer
- Fanellan 400kV Substation & Converter Station - Development Platform
- Zone of Theoretical Visibility (ZTV)\*

Heritage Assets

Listed Building Category

- A
- B
- C
- Scheduled Monument
- Garden and Designed Landscape

ZTV Note:  
1) This drawing shows the theoretical visibility of the Fanellan 400kV Substation & Converter Station with a height of 27.5 m occupying a development platform at 127 m AOD (marked in blue). The assumed viewer eye height is 2 m above ground level.  
2) The terrain model assumes bare ground and is derived from OS Terrain 5 data. The ZTV does not take into consideration intervening vegetation and built form. This presents a worst case scenario.  
3) Earth curvature and atmosphere refraction have been taken into account.
