Note:  
The theoretical visibility of the Proposed Development. This is a 'bare ground' ZTV, making no allowance for screening from the building or vegetation. The ZTV used the Ordnance survey Terrain 5 DTM and is based on a viewer eye height of 2 m. The ZTV was produced based on multiple points along the substation outline at a level representing a 27.5 m maximum height on a site at 127 m Ordnance Datum (AOD).
