**Spittal to Loch Buidhe to Beaulieu 400 kV**  
**Connection Section B**

Work is currently being undertaken to identify and appraise OHL alignment options and identify a Proposed Alignment subject of consideration in the EIA Report. Scoping has been based on the refined route information presented in March 2024 together with additional options which were identified through consultation. For consistency, and as more recent options and some technically challenging sections remain under consideration, the Scoping report is based on refined routes.
