

Taynuilt - Creag Dhubh Reinforcement Project

Taynuilt and Nant OHL Reinforcement Routing Consultations

SSEN Transmission invites you to come and share your views with us at our upcoming public consultation events.

What is happening?

SSEN Transmission is holding public consultation events to gain views and feedback on our routing options for our Taynuilt 275kV and Nant 132kV overhead lines (OHLs). Our Consultation period opens on the **25 February until 23 April 2026**.

Why this project is required

The Taynuilt - Creag Dhubh Reinforcement Project is necessitated by the age and limitations of the existing transmission infrastructure in Argyll. Much of the current network was constructed more than sixty years ago and designed to historical engineering standards, incorporating lightweight towers, reduced electrical clearances, and limited lightning protection. These constraints restrict opportunities for future reinforcement and limit the network's ability to accommodate additional generation capacity.

We kindly request that feedback forms are submitted by **23 April 2026**.

Any comments made to us as the Applicant are not representations to Scottish Ministers as the decision makers. There will be opportunity to make formal representations to Scottish Ministers via the Energy Consents Unit following the submission of the section 37 application.

You are invited to attend our drop-in consultation events:

Wednesday 11 March, 2-7pm

Taynuilt Village Hall,
B845, Taynuilt, PA35 1JH

Thursday 12 March, 2-7pm

Portsonachan Village Hall,
Portsonachan, PA33 1BJ

PUBLIC NOTICES

Your Opportunity to Benefit Argyll Communities

SSEN seeks panel members for its Argyll Local Funds Panel

A panel is being recruited to make decisions on applications to SSEN Transmission Local Funds in Argyll. The panel will initially support the **Argyll and Kintyre 275kV Local Fund**, which will open in 2026 and make **£3,268,000 available to communities over five years**. We are looking for applicants who have worked or volunteered in, or supported, the community or voluntary sector. The panel will also be responsible for future SSEN Transmission funds in the area.

Commitment:
See our website for further details

Fee to panellists:
See our website for further details

Eligibility: Panellists must be a resident in Argyll. In line with UK Government guidance, local government including local authorities and Community Councils cannot be on the panel.

Scan the QR code to access the website:

PUBLIC NOTICES

Blarghour Wind Farm Connection

Overhead Line Routeing Consultation

SSEN Transmission invites you to come and share your views with us at our upcoming public consultation event.

What is happening?

SSEN Transmission is holding a public consultation event to gain views and feedback on our routing options for our Blarghour Wind Farm Connection Project. Our consultation period opens on **19 February until 2 April 2026**.

Why this project is required

Due to the increase in renewable energy generation in Argyll, some of the existing network needs to be upgraded and reinforced to ensure supply and support the transition to net zero emissions.

Why are you consulting on this project again?

We are consulting again because ground investigation works undertaken after our 2023 consultation demonstrated that the previously identified preferred route could not be delivered as planned. Consequently, new route options have been developed, and we are now seeking your views on the newly identified potential route 3.

All stakeholders are invited to provide feedback specific to the proposals at this stage until **2 April 2026**.

You are invited to attend our drop-in consultation event:

Thursday 5 March, 2-7pm
Loch Fyne Hotel,
Inveraray, PA32 8XT

THE HIGHLAND COUNCIL (CUIL BAY, DUROR) (40MPH SPEED LIMIT) ORDER 2025

NOTICE IS HEREBY GIVEN that The Highland Council on 09 February 2026 made, in terms of Section 84 of the Road Traffic Regulation Act 1984, the above order which will come into operation on 01 April 2026.

The Order was previously advertised by Notice in the Inverness Courier on 18 September 2025 and the effect of the Order is as described in that Notice.

A copy of the made Order, together with a copy of the relevant plan, can be inspected at the Fort William Service Point, Charles Kennedy Building, Achintore Road, Fort William, PH33 6RQ from 19 February 2026 to 02 April 2026 during normal opening hours - Mon to Fri: 0930 - 1230. Documents may also be found at <https://www.highland.gov.uk/roadsafety> and selecting "Road Safety Consultations" or by emailing TrafficOrders@highland.gov.uk.

FIRST REGISTRATION OF A CROFT

K A & R Campbell have registered the croft known as Balliemeanoch No 4, Drimsynie, Lochgoilhead & Kilmorich, on the Crofting Register held by the Registers of Scotland.

Any person who wishes to challenge the registration may apply to the Scottish Land Court by the 30th October 2026.

Details of the registration can be found at www.crofts.ros.gov.uk/register/home. The croft registration number is C11186.

FIRST REGISTRATION OF A CROFT

K A & R Campbell have registered the croft known as Balliemeanoch No 3, Drimsynie, Lochgoilhead & Kilmorich, on the Crofting Register held by the Registers of Scotland.

Any person who wishes to challenge the registration may apply to the Scottish Land Court by the 2nd November 2026.

Details of the registration can be found at www.crofts.ros.gov.uk/register/home. The croft registration number is C11185.

Highland Council (U1207 At Loch Quoich, Invergarry, Highland - SSEN Works) (Temporary Road Closure No.3) (Amendment No.2) Order 2026

On the 16th day of February 2026 the Council, in exercise of the powers conferred on it under Section 14(1)(a) of the Road Traffic Regulation Act 1984, as amended, and of all other enabling powers, made the above-named Order, the reason for this amendment is to allow SSEN to continue works to widen and strengthen the road after delays from the failure of the road surface.

Temporary Road Closure - U1207 Kinloch-hourn Road, Fort William, 8.6km.

The works are expected to commence from 01 March 2026 at 08:30 with the closure remaining in place until 01 September 2026 at 18:30.

The days and times of the works may be dependent upon the weather conditions but the Order will be implemented only when the appropriate signs are displayed.

Emergency Services access will not be affected and access for residents, deliveries and pedestrians' out-with the working zone will be maintained.

There will be no diversion route, access will be maintained outside of the closure hours and throughout the day and on weekends.

Taynuilt - Creag Dhubh Reinforcement Project

Taynuilt and Nant OHL Reinforcement Routing Consultations

SSEN Transmission invites you to come and share your views with us at our upcoming public consultation events.

What is happening?

SSEN Transmission is holding public consultation events to gain views and feedback on our routing options for our Taynuilt 275kV and Nant 132kV overhead lines (OHLs). Our Consultation period opens on the **25 February until 23 April 2026**.

Why this project is required

The Taynuilt - Creag Dhubh Reinforcement Project is necessitated by the age and limitations of the existing transmission infrastructure in Argyll. Much of the current network was constructed more than sixty years ago and designed to historical engineering standards, incorporating lightweight towers, reduced electrical clearances, and limited lightning protection. These constraints restrict opportunities for future reinforcement and limit the network's ability to accommodate additional generation capacity.

We kindly request that feedback forms are submitted by **23 April 2026**.

Any comments made to us as the Applicant are not representations to Scottish Ministers as the decision makers. There will be opportunity to make formal representations to Scottish Ministers via the Energy Consents Unit following the submission of the section 37 application.

You are invited to attend our drop-in consultation events:

Wednesday 11 March, 2-7pm
Taynuilt Village Hall,
B845, Taynuilt, PA35 1JH
Thursday 12 March, 2-7pm
Portsonachan Village Hall,
Portsonachan, PA33 1BJ

If you have any questions, please do not hesitate to contact our Community Liaison Manager:

PUBLIC NOTICES

Blarghour Wind Farm Connection

Overhead Line Routing Consultation

SSEN Transmission invites you to come and share your views with us at our upcoming public consultation event.

What is happening?

SSEN Transmission is holding a public consultation event to gain views and feedback on our routing options for our Blarghour Wind Farm Connection Project. Our consultation period opens on **19 February until 2 April 2026**.

Why this project is required

Due to the increase in renewable energy generation in Argyll, some of the existing network needs to be upgraded and reinforced to ensure supply and support the transition to net zero emissions.

Why are you consulting on this project again?

We are consulting again because ground investigation works undertaken after our 2023 consultation demonstrated that the previously identified preferred route could not be delivered as planned. Consequently, new route options have been developed, and we are now seeking your views on the newly identified potential route 3.

All stakeholders are invited to provide feedback specific to the proposals at this stage until **2 April 2026**.

You are invited to attend our drop-in consultation event:

Thursday 5 March, 2-7pm
Loch Fyne Hotel,
Inveraray, PA32 8XT

If you have any questions, please do not hesitate to contact our Community Liaison Manager:

Caitlin Marini

For further information about this project, access to the consultation material and the feedback form can be found on the project webpage: ssen-transmission.co.uk/blarghour

Any comments made to us as the Applicant are not representations to Scottish Ministers as the decision makers. There will be opportunity to make formal representations to Scottish Ministers via the Energy Consents Unit following the submission of the section 37 application.

Taynuilt - Creag Dhubh Reinforcement Project

Taynuilt and Nant OHL Reinforcement Routing Consultations

SSEN Transmission invites you to come and share your views with us at our upcoming public consultation events.

What is happening?

SSEN Transmission is holding public consultation events to gain views and feedback on our routing options for our Taynuilt 275kV and Nant 132kV overhead lines (OHLs). Our Consultation period opens on the **25 February until 23 April 2026**.

Why this project is required

The Taynuilt - Creag Dhubh Reinforcement Project is necessitated by the age and limitations of the existing transmission infrastructure in Argyll. Much of the current network was constructed more than sixty years ago and designed to historical engineering standards, incorporating lightweight towers, reduced electrical clearances, and limited lightning protection. These constraints restrict opportunities for future reinforcement and limit the network's ability to accommodate additional generation capacity.

We kindly request that feedback forms are submitted by **23 April 2026**.

Any comments made to us as the Applicant are not representations to Scottish Ministers as the decision makers. There will be opportunity to make formal representations to Scottish Ministers via the Energy Consents Unit following the submission of the section 37 application.
