

VISTA - Boat of Garten to Nethy Bridge

132kV Cable Delivery Information

Scottish and Southern Electricity Networks (SSEN) will soon be receiving delivery of the 132kV cable that will be installed under the ground and replace part of the current overhead line.

These deliveries have been agreed in partnership with The Highland Council and BEAR Scotland. The cable drums will be delivered to two main delivery points within Boat of Garten in four blocks over the course of the below dates.

We would like to apologise in advance for any disruption these deliveries may cause and we would like to thank the local residents for their patience and support.

To find out more on the deliveries please visit the project website:
